Story of "Christy" Giles's Goiter

Apparently, "Aunt Christy" Giles had an enlarged thyroid gland in her neck for many years and tried to disguise it by a scarf around her neck, which also helped to hold it up.

She lost her husband early in life, after four children.

She had many blessings to cure this malady.

One evening, Patriarch Thomas Hicken sat down in his barn to milk his cow, and was prompted that Aunt "Christy Giles" needed him. He called Patriarch John Duke and they went to see "Christy." They asked her if she needed them. She said "yes." Patriarch Thomas Hicken gave her a blessing. Soon, the big goiter had reduced markedly in size to near normal.

Story verified by Larry B Duke, Cal Giles, and Don L Hicken. Dr Larry B Duke, who was just made Heber East Stake Patriarch (Nov 2002) provided the picture of "Aunt Christy."
